

# Merck Medical Forums

## Join us for an interactive lecture

Merck cordially invites you to attend the medical education event listed below for US healthcare professionals and US healthcare business professionals only. Merck is sponsoring this event and the speaker is presenting on behalf of Merck. The event is a non-CME program. Information presented in this event is consistent with FDA guidelines.

### A Treatment Option for Certain Adults With Advanced Gastric or GEJ Adenocarcinoma

#### Learning objectives:

- Provide an overview of gastric and gastroesophageal junction (GEJ) cancer.
- Review hypothetical patient cases of advanced gastric or GEJ cancer.
- Present the clinical data for a treatment option for certain patients with advanced gastric or GEJ cancer.

**Monday, May 20, 2024**  
**3:20 PM, ET**

Walter E. Washington  
Convention Center

DDW Theater 2, Exhibit Floor

### Speaker: Yue Zhang, MD

Yue Zhang, MD, is a Hematologist/Medical Oncologist at Virginia Oncology Associates. She was an Assistant Professor of Medicine and Hematology/Oncology Attending Physician at Stony Brook University prior to her current position. Dr. Zhang attended Peking Union Medical College and completed a residency program at North Shore - Long Island Jewish Medical Center. She completed postgraduate training in Hematology and Oncology at Yale University School of Medicine and is board-certified in Medical Oncology and Hematology. Dr. Zhang is a principal and sub-investigator for multiple clinical studies and has been published in, and holds reviewer responsibilities for, leading academic journals. She is a member of the American Society of Clinical Oncology.
